I'm a junior pursuing my bachelor's degree in computer engineering. I'm interested in software development, UI/UX design, and product management. I have 1-year of experience building user-friendly full-stack web applications that solve real-world problems.

EDUCATION

B.E. Computer Engineering
Terna College of Engineering

2020 - 2024   *Navi-Mumbai*

Courses
- Algorithms and Data Structures, Applied mathematics, OPPS in Java, DBMS
- CGPA: 8.89 (2nd year aggregate)

HSC science,
Ramniranjan Jhunjhunwala College

2018 - 2020   *Secured: 75.54 %*

PERSONAL PROJECTS

EventTick (03/2022 - 05/2021)
- Project aims to cut down tedious work of managing data of college events and simplify the data storing process.
- Designed a **Token-based authentication** system that cut downed **website traffic by 40%**.
- Build Fast secure **REST APIs** and also did testing using **postman**.
- **Fetched** backend data with frontend using **Axios**.

Lakshya (09/2021 - 12/2021)
- The project focused on learning through youtube providing a proper environment and roadmap for beginners.
- worked on UI/UX and **lead a team of 3 developers**.
- Developed landing page which results in **78% more views**.
- worked on a Course page, Video window, and **Meet integration components.**

WORK EXPERIENCE

### Associate Software Enginee
A Turnkey Tech Solution

08/2022 - Present   *Remote*

Work alongside professional software developers on Moden Tech stacks like Serverless, NodeJS, MongoDB, Strapi, and ReactJS.

Projects
- **Kanagri** - Developed & Deployed **Rest APIs** on **AWS** for Instagram-like story feature using **NodeJS ExpressJs**, and **Serverless** framework.
- **Truckbazi** - Designed and built secure and fast Rest APIs for a payment gateway that serves 10K+ users, using **Serverless**, **server-to-server** calls in **NodeJS** and helped the frontend team integrate it into the flutter app by writing native kotlin code.
- **NBCD -** Developed **User-friendly UI** of POC using **ReactJS, NodeJS**, **MySQL** and **ExpressJS** for a Navy-Based project to manage Inventories on the Ship.

SKILLS

Java   JavaScript   C/C++   React   Tailwind-CSS   Bootstrap   Serverless   Git   NPM   Figma   Netlify   Heroku   AWS   MongoDB   Strapi

ACHIEVEMENTS

3 star on hackerank

Qualified first two rounds of octahack hackathon

Active participation in hackathons like hack this fall, Hack CBS

CERTIFICATES

Python beginner to Advance course completion certificate by code for cause.

Pro backend developer certificate by learn code online.
